

PAPER VIKINGS

ARTWORK BY ZACH HERSHBERGER

This PDF includes free paper models you can print at home. These fantastic figures were hand-drawn by one of the fine fellows at Little Wars TV. For maximum flexibility, Zach has prepared your paper Vikings in two different scales. They are also provided in both full color and black-and-white, for those who may wish to color in their own warband!

To assemble your paper figures, cut out both sides of the model and fold the provided bases as indicated. Using a glue stick, match the front and back together and attach the feet to the tab sticking up on the folded base. Once glued together, you can go back again with scissors to carefully trim any exposed edges around the figure that you missed!
